A WORD ABOUT US

"Education is the tool to mark the beginning and that is why it is considered sacred." In this global competitive world, the Gurukul family has taken up the herculean task of nurturing and grooming young minds.

Our motto "Transforming Knowledge & Information Into Wisdom" encapsulates our mission to instil in our students an insatiable quest for knowledge, through experiential learning, to introspect and analyse, apply and evolve, thereby leading to transformation.

Gurukul International School (Proposed ICSE) under the aegis of "GURUKUL TRUST" thus lays impetus on providing an enriching, enjoyable & a wholesome learning experience to its students.

A vibrant techno savvy school with an ultra-modern campus; Gurukul caters to the needs of new generation learners. Beautifully designed classrooms, state of the art infrastructure and a child friendly atmosphere provides a safe and stimulating environment to the young learners.

Driven by latest research, the school proposes innovative teaching methodology with special emphasis on extra-curricular and co-curricular activities and communication skills.

Values form an intrinsic part of our curriculum. We strive towards building a positive attitude in our students with our rich and varied heritage, encourage them to value traditions, learn to do the right things and exhibit socially responsible behaviour.

Our endeavour is to transform young minds by lighting the lamp of wisdom and giving to the world young, self-motivated and disciplined ambassadors - responsible future leaders, ready to take their place under the sun.

'Excellence to us-is not a target to achieve, but a way of life.

Come join us and become active partners in this process which is indeed an amalgamation of discovery, expression and mastery.

SCHOOL INFRASTRUCTURE A KEY ELEMENT OF STUDENTS' LEARNING.

Gurukul International has adopted Central Board of Secondary Education (ICSE) curriculum. The Curriculum of the Pre-Primary Section 'GRACIOUS SAPPLINGS' is designed by our subject experts and is perfect blend of scholastic and co-scholastic that promotes physical, intellectual, aesthetic and cultural development of our students. Howard Gardner's Theory of Multiple Intelligences & 'Learning by Doing' are the guiding beacons that shape our curriculum. PLAY, LEARN and GROW programme at 'GRACIOUS SAPPLINGS' will tap the potential of each child and help it bloom to its fullest.

FAITH AND CONFIDENCE ROOTED BY DEVELOPING

GROSS MOTOR SKILLS & FINE MOTOR SKILLS

PRE READING & READINESS LANGUAGE SKILL

MUSIC, DANCE, ART & TECHNOLOGY

SMART CLASSROOMS

Vibrant techno savvy, Interactive Classrooms is the perfect combination of technology and education. Learning here will be a dynamic experience on an individual level with incorporation of digital quizzes, assignments, videos, simulations and gamification elements. Learning will become easy and rational hence interesting.

LIBRARY

Reading is to mind what exercise is to body. The School Library too endorses the sentiments of 'Gustavo Flaubert' 'Read in order to live and not just exist'. The School Library thus offers Gurukulites' bottomless treasure trove to lose themselves into the world of books of all genres some meant to be read, some to be chewed and some to be digested - broadening horizons and opening minds to new possibilities

LANGUAGE COMPETENCY

Language plays a pivotal role in the development of an individual the most important life skill. The lexicon of language will be honed by edifying the Key Linguistic Skills like Listening, Speaking, Reading and Writing along with various innovative, interactive and exhilarating activities like story narration, recitation, dramatics Shows & Tells, anchoring show imaginative plays. etc

MATH LAB-WE DISCOVER BY DOING

Math lab is our 'Mathematics Playground with numbers, letters and symbols' all juggling together, where children will fall in love with mathematics. Abacus and Vedic Math training will further enhance speed, accuracy, mental agility and confidence.

SCIENTIFIC TEMPER & HUMANITIES

Science and technology will bring the entire colourful, diverse biotic world into the classroom and build on logical, scientific and critical thinking. 'All the world is a laboratory to the Inquiring mind' YES our well-equipped Physics, Chemistry, Biology & Computer laboratories will serve as stimulating places for students where they will try to explore and experiment to find the truths behind the facts.

COMPUTER EDUCATION

Computer and education together are ruling the planet. In this digital era of today every application is linked with computer technology. To keep our students abreast in this digital era we plan to expose the kids to computer education and its sub-disciplines like Robotics etc. Our well-furnished, well-equipped and powerful networking will enable students to explore and research at a faster speed.

PHYSICAL EDUCATION AND YOGA

The Physical education evolves the overall fitness and cognitive understanding. It boosts positive attitude and helps acknowledge team spirit. The asanas performed instils discipline & provides enrichment to the body and soul and also sharpens memory and concentration.

AESTHETIC SUBJECTS

Art & Craft studio will mix various shades of creativity of the Gurukulites & disperse sparks of versatility.

And there's lot more...
Myriad other facilities to cater to the learning

BHARATNATYAM

FOLK

VOCAL

INSTRUMENTAL

SKATING

KARATE

DANCE

Instils discipline, perseverance and strengthens focus and self control. Being a vehicle for self-expression, it maintains perfect emotional balance.

MUSIC

The symphony of life. Music gives soul to universe, wings to the mind, flight to the imagination and life to everything.

SPECIAL ACTIVITIES

'Gurukulites' will be chiselled by able mentors in any one activities from-amongst Karate and Skating.

HEALTHY CUISINE

We plan to implement Healthy balanced Meal Design through our endeavour Healthy Cuisine-Robust Living. This second home of the blooming buds will partner with the parents in nurturing and instilling the correct eating habits through the meal provided during the break time. We believe that Reflect - Replace - Reinforce is the mantra to Robust-living that needs to run down the young veins.
